FAQ

What is an IPO?

An IPO, or Initial Public Offering, is the process through which a private company offers its shares to the public for the first time.

What is KCAC?

KCAC refers to Kensington Capital Acquisition Corp, a special purpose acquisition company (SPAC) involved in merging with Quantumscape.

Why is Quantumscape significant?

Quantumscape is known for its innovative solid-state battery technology, which has the potential to revolutionize electric vehicle performance.

How can I trade IPO stocks?

To trade IPO stocks, you typically need to have a brokerage account and may need to place orders during the IPO offering period.

What should I consider before investing in a merger?

Before investing in a merger, consider the financial health of both companies, market conditions, and the strategic benefits of the merger.
